

# Moderated Deliberative Dialogue on **SAFETY AND JUSTICE**

## How Should Communities Reduce Violence?

*Please join us for a moderated dialogue on how we as a community need to look for a shared direction guided by what we most value.*

*This means examining the costs and consequences of possible solutions to daunting problems and finding out what we, as a society, would or would not accept as a solution.*

*This deliberative dialogue session is based on the National Issues Forums (NIF) model, part of a national effort to learn how citizens feel or what they believe, about safety and justice concerns.*

*This is open to the public, and free of charge.*
